

CREATING A NEW CIVILIZATION: THE AQUARIAN AGE EMERGING

“Water of life am I, poured forth for thirsty humanity.”

We live in an amazing time. Through changing cycles, the human race has come a long way. Eighteen million years ago, the Spiritual Elders of our planet began their care of a fledgling humanity and looked ahead to “this day” anticipating the breakthroughs we are now in. Today there are two Aquarian Ages emerging, a lesser 2,500 and greater 25,000 year cycle! “This constellation is one of supreme importance to our solar system at this time; it is the sign into which our Sun is rapidly moving and its influence is gaining in momentum and added potency with each vanishing decade. It is therefore largely responsible for the changes now being effected in our planetary life in all the kingdoms of nature.” [EA, p.134]

The focus of our conferences is nested within the tri-unity (trinity) of *spiritual will, spiritual love and spiritual intelligence*. Embedded within this years’ theme is a focus on the third ray—sometimes called the Mind of God, or Creative Intelligence. The *creative process*, expressed throughout all the kingdoms of nature, is only “consciously beneficent” when seized by an “awakened” humanity. Humanity constantly creates, individually and as groups, as is observable through the many and varied forms of its creative pursuits, manifestations, demonstrations and expressions. To the degree “we” create in line with the Purpose of the Lord of the World (the Great Soul Who embodies this Earth) will we be working out the Plan on Earth.

“All life is intended to take the form of a progressive series of awakenings. Progress, movement, awakening, expansion, enlightenment, evolution, growth—these words are but a few of those applied to the effects, both within and without, of the *creative process*... this intention is called the Plan when expressed on earth and ... “the Plan has to be implemented by Humanity.” [DNA-II, p 306/7] As members of the Human family, we have a definite and vital co-creative role to play!

By “enquiring the way” through reflection and feedback, we learn, adapt and expand. We might ask, then, **how are we doing in our role as co-creators**—are we creating in line with what we intuit the higher Will of Divinity to Be? How are we doing bringing about the required changes for a world we all want to live in? How are we doing with what we know are right attitudes and right actions? While the world as we know it undergoes deep changes and transition, are we

staying on course with our Soul directives? How are we doing building the necessary systems and structures that will be home to the emerging Aquarian energies? Esoterically, are we helping humanity and life on earth move forward onto a higher turn of the spiral of the great “Path of Return?” Are we nourishing the seeds of life hidden within all forms? How are we doing awakening and training souls for a new, better and sanctified world? **How are WE doing, how are YOU doing?** This common place greeting takes on new value, and deepened meaning and purpose when considered from the perspective of fulfilling the Plan.

Intimately related to the third ray, and the Plan, is the right use of concretized energy we call “money” and the resources we associate with it that for too long have been “freely” misappropriated. In times of financial and economic crises, where millions live in intolerable conditions and precarious imbalance, we will explore emerging new methods and systems that bring relief, right livelihood and collective responsibility as viable solutions.

The Master DK, author of eighteen “blue books” scribed by Alice A. Bailey, wrote that “during the 21st century our world will be “entirely removed”! A new Civilization is in formation. Aquarius, the Water Bearer, pours forth the “waters of life” onto a thirsty world—thirsty for etheric vitality and new patterns of living, thirsty for a spiritual life and the freedom to pursue higher callings, thirsty for free energy and a magically inventive civilization, and thirsty for the wellbeing of all life including the Earth as a living, breathing Being. Washing clean the refuse and stagnation of a dying world order, the stimulus and release of new powers and qualities inherent in our spiritual DNA will result in the unfoldment of individual and collective Potential “entirely removed” from the old ways. We are “Gods Making.” It is our destiny to co-create the “wonders” of the new age.

Join us, friends, for illuminating lectures and workshops where together we will “seek to understand” and “enquire the way”; for inspiring music, beauty and art; an environment wherein we can relate as “friends upon the lighted way”; and group meditations that invoke the sacred. Let us pool **who we are and intentionally** co-create with the emerging “waters of life!” As Aquarius, so Earth! As Above, So Below!
