METAMORPHOSIS & COLOR

With Tuija Robbins

Ceremonial Magic is one of the most powerful methods of individual and group transformation.

In all esoteric ceremonial work, the angelic/devic energies transmitted through color, music and symbol—known as “spiritual numerals” strengthen the esoteric impulse which propels the candidate’s elevation one step further into the Fifth Kingdom of Nature—the Kingdom of Souls.

Special attention will also be given to the great potential for human metamorphosis when Pluto (the planet of death and rebirth) enters Capricorn (the sign of initiation) in 2008.
