The Seven Ray Institute and The University of the Seven Rays wishes to extend its sincerest gratitude to the numerous volunteers who have given of their time and energy, skill in action and gifts of service to make this conference possible. Our volunteers work countless hours both behind the scenes and in front (before, during and after the conference ends) to produce a yearly conference of ever increasing quality, what we have come to know and expect as a “*spiritual event in time and space.*” In the same spirit, we cannot thank enough all our presenters who come from far and wide to share with us their inspired thoughts and good-will energies. Creating these yearly conferences requires high cooperation, group work and joyful expression of Soul in action. “The qualities of seventh ray energy are found in the power to create, the power to cooperate and to reveal the “beauty of God” through the manifested form.” Thank you to one and all.

With deep gratitude and appreciation, we wish to thank the Synthesis Foundation for its generous financial support and ongoing generosity which has made it possible to offer our annual conferences on a donation basis. The SRI/USR is now able to extend conference participation to a broader range of participants who would not otherwise be with us. Additional funds have also been provided which serve to bring you a fuller and more rewarding conference for which we are all very grateful.

The Seven Ray Institute and The University of the Seven Rays is very grateful to Michael Alberts for his artistry and skill in co-creating our yearly conference brochure, to Darren Roth for his services in designing and maintaining (with Michael Alberts) our new and beautiful website, and to Amena Divine for the editing of audio conference tapes. We also wish to thank Marc and Carolyn Hathaway of Specialized Technical Services (STS) for providing us the free use of their excellent sound and lighting equipment and especially to Scott Lars Petersen of Staging Solutions (SSI) for his management of and technical expertise in projection and recording the conference. A warm thanks to all our behind-the-scenes technology, stage set-up and make-it-happen volunteers! We appreciate and love you all!
